8.6

DETAILED ACTION

Response to Arguments

Applicant's amendments and arguments filed 2/22/07 have been fully considered

but they are not persuasive. Regarding the rejection under 35 U.S.C. 102(b) as being

anticipated by Harrington (5,893,889), claims 1 and 38, it is the Examiner position that

the retention members as noted in the rejection are "movably engaged".

Inventorship

The request to correct the inventorship of this nonprovisional application under

37 CFR 1.48(a) is deficient because:

A statement from each person being added as an inventor and from each person

being deleted as an inventor that the error in inventorship occurred without deceptive

intention on his or her part as required in § 1.48 Correction of inventorship in a patent

application, other than a reissue application, pursuant to 35 U.S.C. 116.

Allowable Subject Matter

Claims 4-30 and 40-45 are allowed.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that

form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

Application/Control Number: 10/701,547

Art Unit: 3738

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3 and 38 are rejected under 35 U.S.C. 102(b) as being anticipated by Harrington (5,893,889).

Harrington teaches:

(Original) A vertebral implant apparatus for interposition between two vertebral bodies, the device comprising:

a core member 69 positioned between an outer body 32 and an inner body 34, the outer body comprising a chamber 51 for housing the core member and the inner body comprising a shaft 45 extending at least partially into the chamber, wherein the outer body is movably engaged with the inner body; and

a first retention member 74 (and/or 46) on the outer body and a second retention member 76 (and/or 57) on the inner body, the first retention member cooperating with the second retention member to retain the shaft in the chamber;

wherein responsive to a load applied to the apparatus, the shaft slidably advances into the chamber to at least partially compress the core member between the outer and inner bodies.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 3738

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Bruce E. Snow whose telephone number is (571) 272-4759. The examiner can normally be reached on Mon-Thurs.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Corrine McDermott can be reached on (571) 272-4754. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Art Unit: 3738

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
